

## LAST WARNING TO CHINA WU PUT TO A FINAL TEST

**Hard Stern Note With the Ring of An Ultimatum Sent From Washington to the Chinese Imperial Government By Secretary Hay.**

## AMERICA AGAIN TAKES LEAD IN ACTION

**Must Permit Party of Allies to Enter Peking and Escort Ministers to Place of Safety—Will Go Armed, But Under Flag of Truce.**

Shanghai, Aug. 9.—[Special Cablegram]—The Russians defeated the Chinese at New Chwang and then burned the city. The allies have taken the town of Yan Tsun.

Washington, August 9.—[Special Telegram]—The state department gave out the following text of the note addressed to Wu yesterday by the United States:

"We are availing ourselves of the opportunity offered by the imperial edict of August 5, allowing the foreign ministers free communication with their respective governments in cipher and have sent a communication to Minister Conger to which we await an answer."

The note then quotes Conger's dispatch saying that it was death to leave Peking.

"In view of the fact," the note goes on, "that the imperial troops are now firing on the legations and in view of the doubt expressed by the imperial government in its edict of August 2 of its power to restore order and secure absolute safety in Peking, it is evident that this apprehension is well founded, for if your government cannot protect our minister at Peking it will presumptively be unable to protect him on his journey from Peking to the coast."

"Therefore urge on the imperial government that it shall adopt the course suggested in the third clause of the letter of the president to the emperor on July 23 and enter into communication with the relief expedition so that co-operation can be secured between them for the liberation of the legations, the protection of foreigners and the restoration of order."

"Such action on the part of the imperial government will be a satisfactory demonstration of its friendliness and desire to attain those ends."

**Road to Peking Reported Open**

Shanghai, August 9.—[Special Cablegram]—Later advices say that the Russians had five hundred killed at Peking, the British forty and the Japanese four hundred. The British, Japanese and Americans operated on the right of the river, and the Russians, Germans and French along the railroad. The Russians and Japanese bore the brunt of the attack. The road to Peking is reported open.

**Last Warning Sent to China**

Washington, D. C., Aug. 9.—War with China, without any disguise or quibbling about technicalities, will be waged by this government unless there is an immediate change of front on the part of that imperial government. Minister Wu was reminded by the state department today that his government had not complied with the suggestions made by President McKinley in his cablegram to the emperor in regard to the Chinese government co-operating with the international forces in the rescue of the ministers.

He was notified that the United States would expect the imperial troops to co-operate with the international forces in the protection of the ministers, and that a failure to do so would be construed as a declaration of war.

Another protest was entered against removing the ministers from Peking, if they are still in that city, and the Chinese were warned that they would be held responsible for any violence that may befall Minister Conger while enroute from Peking.

**Empress Dowager Takes Pity**  
Shanghai, Aug. 9.—[Special Cablegram]—A Tien Tsin dispatch says that a Chinese runner who arrived from Peking announces that on July 28 the empress dowager sent four cart loads of provisions to the legations.

**Want to Leave Peking**  
London Aug. 9.—[Special Cablegram]—The Chinese minister this afternoon

received a cipher message from the British minister at Peking which was transmitted to Salisbury.

Minister Lu announces that the ministers have agreed to leave Peking with an adequate escort for Tien Tsin. He says they are only waiting for arrangements to be made with the commanders of the allies for flags and other means of signaling so that the ministers of the party may not be taken for hostile Chinese.

**Yan Tsun Captured.**

Washington, Aug. 9.—[Special Telegram]—The war department today received the following: "Che Foo, Aug. 9th, Yan Tsun captured today. Wire up. Need more transportation. All well. Striven."

**HIGH PRAISE FOR GEN. WALTERS**  
Vienna Press Praises General Said to be Allied Commander.

Vienna, Aug. 9.—The reported appointment of Count Walters as commander of the allied troops in China, although coming as a surprise to local political and diplomatic circles, receives their hearty approval and the declaration that the choice is the best possible is unanimous.

The press today pronounces him a man of remarkable ability, the following tribute by the Freie Presse to his fitness for the position being characteristic of all the editorial utterances here: "The former General-in-Chief of the German army is not only an experienced leader, who has won untold laurels on the battlefields in Bohemia and in France, but also a statesman and a diplomat and a man with a great knowledge of the world."

"If commanding an ordinary modern army in war be not easy, commanding one composed of eight different contingents and speaking eight different idioms is much more difficult, but Count Walters promises to be equal to this task."

The Presse believes that the Count will command the respect not only of all European powers, but the fact of his being married to Mary Esther Lee of New York will win him the sympathy of America and the Japanese officers, most of whom have been educated in Germany, will naturally feel confidence in him.

**MAY GIVE MR. WU HIS PASSPORT**

**In Event China Does Not Comply With Latest Request**

Washington, Aug. 9.—The Chinese Minister may be given his passport in the event of the failure of prompt compliance on the part of his government with the suggestions of the state department. This will be done, however, as a last resort, as the officials are loath to break off diplomatic relations with China, for when they do this they close the way for telegraphic communications with the American Minister. Minister Conger's advice received last night have upset the officials of the administration, and today they are in a state of mind bordering on despair, and they would not be surprised to hear at any moment that Minister Conger, his family, the attaches of the American legation, and the other diplomats have been massacred by the Chinese.

**High Post for German.**

Berlin, Aug. 9.—A German semi-official telegraph agency reports that the Cologne Gazette has been informed on trustworthy authority that Field Marshal von Waldersee has been appointed to command the allied forces in China.

**LAST WARNING SENT TO CHINA**  
**Must Permit Allies to Escort Envoys Out of Peking.**

Washington, Aug. 9.—The immediate result of the message received by the state department from Minister Conger has been an important communication from the government of the United States to the government of China, which was delivered to Wu Ting Fang, the Chinese minister in Washington. In addition to representing in very emphatic language that China has not complied with all the conditions looking to an amicable settlement, laid down by President McKinley in his letter of July 23, in response to the

emperor's appeal for the president's mediation, the note is understood to contain a new condition or suggestion, in effect: That China, in order to show her good faith toward the foreign ministers in Peking and their governments, permit a portion of the allied troops, to enter Peking and take from the legations and the city the foreign ministers, other foreign officials, missionaries, marines, women, children, and servants who have been besieged for nearly two months. In making this and other conditions as a basis for an amicable arrangement of the differences between China and the powers, the United States government has again led the way toward an ending of the troubles in which China has become involved. To further test the good faith of the Chinese government, in its announcement through an imperial decree received by Minister Wu Ting Fang that the ministers and their governments will be afforded free communication in cipher, Acting Secretary of State Adee sent, by direction of President McKinley, a cipher telegram addressed to Mr. Conger at Peking. The government will regard the receipt of an answer to this message as proof that the imperial authorities are honest in the declaration contained in the decree.

## IS FOUND DEAD IN A CORNFIELD

**Body of Mrs. William Garlock of Milton, Found Near Lima—She Had Shot Herself.**

Lima Center, Wis., August 9.—[Special]—Mrs. William Garlock, the woman who has been missing since last Saturday, was this morning found dead about fifty rods from her home in a cornfield. She had shot herself.

The Gazette last Monday had the following concerning this case:

Mrs. Will Garlock of Milton, Wis., left her home on Saturday afternoon with a small pair in her hand saying she was going out to pick some berries. Since then nothing has been seen of her. About twenty men were out looking over the surrounding country trying to find her, but without success.

The missing woman was subject to spells of dementia and it is feared by the family that she was taken with one of these spells, and has wandered off and some harm has befallen her.

**Senator Hanna's Alleged Superstition.**  
One of Senator Hanna's friends is authority for the statement that the Ohio boss has a strong vein of superstition in him. It is even declared that he is a regular patron of an old German woman, Frau Gutekanot by name, who lives in Cleveland and has great renown there as a soothsayer.

## STRONG PLATFORM ADOPTED BY BADGER REPUBLICAN CONVENTION

The Republicans of Wisconsin in convention assembled heartily endorse the republican platform adopted at Philadelphia and pledge their enthusiastic support to the republican candidates for president and vice president.

We endorse the national administration of William McKinley and the work of our able senators and representatives in congress.

We endorse the administration of Governor Scofield and the other present state officers as clean, capable and business like, and heartily commend its efforts toward carrying out the pledges of the Republican state platform adopted by the convention in 1898.

The great reformation effected in our general elections through the Australian ballot inspires us with confidence to apply the same method in making nominations, so that every voter may exercise his sovereign right of choice by direct vote without the intervention or interference of any political agency. We, therefore, demand that caucuses and conventions for the nomination of candidates for office be abolished by legislative enactment and that all candidates for state, legislative, congressional and county officers be nominated at primary election upon the same day by direct vote under the Australian ballot.

The establishment by the last republican legislature of a state tax commission for the purpose of an exhaustive investigation of the complicated questions of taxation was in accord with principles of sound public policy. This commission will be able to present the facts essential as a basis to sound legislative judgment and to the enactment of such laws as may be necessary to compel each individual and every corporation transacting business within the state—except such fraternal and other associations as are now especially exempted from taxation by law—to bear a justly proportionate share of the burden of taxation. To the immediate accomplishment of this end the Republican party of Wisconsin stands pledged.

The growth and development of business and commercial affairs require of necessity large aggregations of capital. Great enterprises may be honestly and fairly conducted with legitimate profits to investment and substantial good to the community; but combinations and trusts that destroy competition, restrain trade and create monopolies should be prohibited by law, and we demand the enactment of such legislation, state and national, as shall render these abuses impossible.

We heartily endorse the action of the last legislature on the pass question and demand that the next legislature take such further action as shall be necessary to submit the constitutional amendment proposed and passed at the last session of the legislature to a vote of the people for final ratification.

We approve of the action of the last legislature in imposing strict regulations upon lobbying at the state capitol, and demand such further legislation as shall restrict the lobby to legitimate argument before legislative committees.

We demand the enactment and enforcement of laws making character and competency requisite for service in our penal and charitable institutions.

We believe the demand for better highways made by the farmers of Wisconsin should be encouraged by the state as favoring an improvement of great practical value for agricultural interests.

We pledge the party to an economical administration of public affairs reducing all expenditures to a business basis.

We record our high appreciation of the pronounced ability, invaluable public services, sound republicanism, and devotion to the national administration of the Hon. John C. Spooner. We receive the announcement of his fixed determination to retire from official and public life, and especially of the cause for such determination with profound regret.

## ALL ROME IS IN MOURNING

**Impressive Rites Over the Remains of Italy's Dead King Today.**

## PEOPLE SHOW SORROW

**Procession to the Tomb Headed by Great Dignitaries of the Nation.**

## THE CITY DRAPED IN BLACK

Rome, Aug. 9.—[Special Cablegram]—The funeral train bearing the remains of King Humbert left Monza at 4 a. m., accompanied by the Duke of Aosta, the Count of Turin and the Duke of Oporto. A large crowd witnessed its departure in silence. At 5 o'clock the train reached Milan, where all the authorities and an immense throng had assembled at the railway station.

**Impressive Funeral Service**

The train reached Rome at 6:30 o'clock. A company of cuirassiers entered the car and bore the casket to the main hall of the station, which was washed in black with drapings and a temporary chapel arranged.

Court Chaplain Lanza pronounced eulogium and the remains were carried to the street and placed on a gun carriage and conveyed to the Pantheon.

The streets were jammed with people, held in line by cordons of soldiers and police. All the buildings were draped in black. The procession was headed by naval and military contingents and composed of all the great dignitaries of Italy.

The crowd stood bare headed and silent as the funeral service was most impressive and elaborate.

As the procession passed through Via Nazionale at noon the crowd surged madly backward and forward and many fell and were trampled upon before the police could get control. A number of persons were injured and removed to the hospitals.

**Fearful for the King**

The cause of the panic is unknown.

It occurred just as the king's remains were passing. Behind the coffin walked Victor Emmanuel, Duke Aosta and Count Turin. Believing that danger threatened the young monarch the two latter drew their swords and stepped to his side and the cavalry dashed forward and formed a hollow square around the king.

**Deepest Sorrow and Loyalty.**

After the funeral services the royal party proceeded at once to the quinal, escorted by troops, the spectators along the route baring their heads respectfully.

Telegrams from the various cities and towns through which the funeral has passed say that the authorities and populace displayed signs of the deepest sorrow, and of loyalty.

The decoration of Rome is complete and the scene is extraordinary. Nine hundred municipalities have sent delegations to attend the funeral ceremonies. No fewer than 150,000 foreigners have arrived. Funeral wreaths are so numerous that it is impossible to find room for more on the ground floor of the quinal.

**NEW KING AND QUEEN ENTER ROME**

Police Are Keeping a Close Watch on All Anarchists.

Rome, Aug. 9.—King Emmanuel III and Queen Helena have arrived in Rome. All the court officials, parliamentary and other dignitaries were at the railway station to meet them. The members of the cabinet, along with Premier Saracco, were prominent in the throng of distinguished people who came to greet their new sovereign.

Count Crispi, Sigs. Rudini, Zanardelli, Giolitti and Sonnino, the military attaches and most of the deputies, with the exception of these of the extreme left, awaited the arrival of the king and queen. The king told Premier Saracco that he thought the present laws sufficient to maintain order, if strictly applied. In order to avoid danger and worry from their presence in the streets, thirty noted anarchists who reside in Rome, were arrested. Some feigned sickness and were carried to prison in their sleeping attire. A few who received timely notice of the raid escaped over the roofs of the houses in their neighborhood.

## CONGRATULATIONS FOR LA FOLLETTE

**Senator Whitehead Says "Call On Me If You Need Help"—Hot Campaign Is Expected.**

Milwaukee, Aug. 9.—At the conclusion of his speech of acceptance at the close of yesterday's convention, Mr. La Follette was fairly overwhelmed with congratulations, thousands of delegates and spectators pressing forward to shake his hand and assure him of their good will and hearty support.

The vigor with which the nominee delivered his speech caused him to perspire freely and when the handshaking began he became so hot that he was compelled to throw aside his coat. The informality of this action caught the fancy of the assemblage, for it was itself a colossal mass, and it cheered lustily. Later a lot of university boys surrounded the candidate and gave the in spring college yell in which the Madison man heartily joined.

During the evening the nominee descended to his headquarters and a few minutes later to the lobby, at both of which places the congratulating crowd continually surrounded him.

Senator John M. Whitehead of Janesville was one of the many to extend their best wishes. Mr. Whitehead was the last but one of the aspirants for the nomination to withdraw from the field. "I congratulate you, 'Bob' said Mr. Whitehead, "and you may call on me whenever you need my help." The nominee thanked him warmly.

Mr. La Follette has not yet mapped out his plans for the campaign. He said that he would have to consult the state convention committee before anything definite could be announced. "You may say, however, that I shall exert every bit of energy that I possess in order to make creditable fight," he added.

**Robbery at Appleton**

Appleton, Aug. 9.—[Special Telegram]—Joseph Schmidt was waylaid on Riverside cemetery bridge last night by two men who knocked him senseless, robbed and threw him over the bridge into a ravine, a fall of twenty-five feet. He lay there helpless until this morning. He may recover.

**Crazed By the Heat.**

Chicago, Aug. 9.—[Special Telegram]—Crazed by heat, John Dodor, a lumber tallier, shot and killed his wife, and fatally shot himself at noon.

**Sold for \$1,100,000.**

New York, Aug. 9.—[Special Telegram]—The property of Harper Brothers was sold at auction today for one million and one hundred thousand dollars to the reorganization committee.

WILLIAM WELCH and family of Missouri Valley, Iowa, are visiting Mr. Welch's parents, Mr. and Mrs. William Welch, on Gold street.

Milwaukee, Wis., August 9.—The republicans of Wisconsin late yesterday afternoon lowered the convention record to twenty-three minutes flat. In that space of time a platform was adopted, nominating speeches made and an entire state ticket placed in the field, with Robert M. La Follette at the head. It was a convention in which everything went by acclamation.

**Predict Big Victory.**

Conservative party leaders predict the ticket will be elected by a majority of not less than 50,000. The sentiment of the rank and file was indicated by the banner of the Oconto county delegation, which read "100,000 majority for Little Bob."

Yesterday's convention was probably the most harmonious in the history of the party in Wisconsin. Its sentiments were so well known that Chairman H. C. Adams, state dairy and food commissioner, declared many motions without calling for the yeas. The delegates entered into the jocular spirit of the chairman and greeted his decisions with sallies of laughter.

Senator Quarles, in a speech made to fill a waiting spell, spoke of it as the most remarkable state convention with in his memory.

**College Yell Is Heard.**

College men were in evidence with their youthful faces, their fraternity pins and their college yell. When Mr. La Follette was nominated and again when he appeared to make his speech of acceptance several hundred college men broke forth with the familiar student yell: "U, rah, rah, Wis-con sin, U rah, rah, Wis-con sin, tiger-r-r."

High above the ordinary cheering rose the lusty yell of the young delegates. The myriad flags and banners decorating the grand exposition hall fluttered in unison, and the cry rolled and reverberated until the last echoes were lost among the rafters in distant corners. It was a picturesque incident in an otherwise tame convention.

**Gavel For Chairman Adams.**

One of the most interesting incidents of the convention was the presentation of a gavel made of wood taken from the gate post of Andersonville prison. It was presented to Chairman Adams by General G. E. Bryant in the name of a common soldier at Marathon county.

Gen. Bryant was recognized as the political godfather of Mr. La Follette, and the convention gave three cheers for him before it would allow him to proceed with his speech. After the presentation of the gavel a recess was taken until 2:30 o'clock.

**Charles Praises Spooner.**

The convention reassembled promptly at 2:30 o'clock, but the committee on resolutions was not ready to report. A number of prominent party men were called upon for speeches. Senator Quarles was greeted warmly, and spoke briefly on the issues, paying a tribute to his colleague, Senator Spooner.

Emmet R. Hicks, ex-Lieutenant Governor Emil Bansch, Morris McKenna, and Congressman Babcock delivered speeches exhorting the members of the party to work for success. At the conclusion of Mr. Babcock's speech the committee on resolutions reported. H. W. Chynoweth, the chairman, read the report, which was adopted.

**Nominee Thanks the Delegates**

General George E. Bryant then nominated Robert M. La Follette for governor, and the convention gave unanimous approval. Mr. La Follette was escorted into the hall, and in thanking the delegates, he said:

"To the plighted delegates, I promise loyal support and devotion. For years I have with others advocated these principles and rejoice with you to see the republican party pledged to give them the force of law. Questions of immediate concern to the people of this state press for consideration and you have given assurance that in a spirit of fairness and justice to all these questions are to be met with sincerity and settled with certainty. Let no man be misled. More must not be promised than can be performed. Every problem presented must be wrought out with that care that shall work no wrong to any interest, but with that thoroughness and earnestness which shall insure good results with reasonable promptness."

"Each individual and every corporation transacting business within the state—except such fraternal and other associations as are

now expressly exempt from taxation by law—must pay neither more nor less than a justly proportionate share of the taxes. Selfish human nature in the individual and in the corporation may resist, but there will be no halt and no compromise. This question must be settled, and rightly settled, upon a basis clearly shown to be just and equitable to all.

### Puts All on Equal Footing

"By no touch of magic, but step by step shall we make progress until the interests of individuals, of corporations and of the public stand alike before the public official, finding neither prejudice nor favor, but receiving the same measure of fair dealing that is accorded to either in a court of justice. The public official must owe no obligations anywhere, excepting to the public. He must be free to pass judicially, as it were, on all questions of conflicting interest which come before him. Upon this plain, self-evident proposition rests the reason for the anti-pass legislation, the manifest justice and wisdom of which no unbiased citizen will question today. By its recorded pledges the republican party is fully committed to consummate and perfect every requirement necessary to effectively prohibit public officers from accepting from any corporation any pass, frank or free transportation for himself or for his property, or from receiving reduced transportation rates or mileage other than is offered to the public.

### Praises Caucus Reform

"Nothing which has been done by any convention in a quarter of a century will give to every man who has had a share in the work such enduring honor, when it shall have ripened into statutory law, as the declaration made here today for the nomination of all candidates by direct vote at a primary election under the Australian ballot. The tests of experience will doubtless be required to perfect all the working details of a primary election law. It would be strange indeed if it were not so. But your great achievement is in having established the principle and begun the overthrow of a system that is undermining representative government throughout the land. No longer in Wisconsin will there stand between the voter and the official a political machine with a complicated system of caucuses and conventions, by the easy manipulation of which it thwarts the will of the voter and rules official conduct.

### Thanks to Old Friends.

"To those who have with unshaken confidence borne the heat and burden of many a fight with me I may be permitted to make open acknowledgment and express my lasting and affectionate regard. No one knows so well your disinterested loyalty to the cause in which you have never faltered, but gone forward from the first, indifferent alike to political sunshine and to political storm. No one knows so well what certainty I can turn to you for support in discharging every political duty which may come to me, with that largeness of spirit and breadth of view which shall unify and make strong our great party organization.

"To the republicans who have stoutly and manfully opposed me in this and other contests I tender that respect and admiration due to every worthy opponent. Good fellowship and good fighting go together. Standing by our convictions, let us put the differences that have divided us aside. As republicans we have now one common cause—the triumph of our party in the political battle that is on, and the right record which it must make for good government after the battle is won."

### Seven Nominated in a Bunch.

On motion of H. K. Butterfield of Hartford, the other seven candidates were nominated in a bunch, and the convention adjourned.

Miss French ("Octave Thanet") possesses a novel accomplishment, rare among writers. She has remarkable ability as a mimic and is able to carry on impromptu a conversation between two or more imaginary persons, modifying her voice to represent different characters. Indeed, the dramatic element is so strongly developed in Miss French that had she not found success with the pen she would have won fame as a comedienne.

## GREAT VALUE OF A SUMMER VACATION

By Ewing Brooks Wiggin, M. D., Professor of Physiology in Northwestern University.

The life of the average American of today is full of intense mental and physical activity, business consuming the major portion of the day—often all the working hours. This is a great cause of indigestion, consequent poor blood, and finally neurasthenia or nerve starvation. It is only when sleep takes full possession of the body the wearied brain is given a rest from the absorbing scramble for existence.

Our life being so near Roosevelt's ideal of a strenuous one has resulted in the production of a race physically different from the rest of the world—a race in which the brain and nervous system have been developed to a dangerously fine degree. The value of a vacation during our heated term cannot be overestimated. The change from the noise of the city to the quiet of the country is in itself one of the most important results. The constant din of this human hive has a most irritating effect on the ears, and through them on the central nervous system. Also we have reversed the Spaniard's canon.

Man is, to the physician, a complex and delicate machine, composed of the mind and body. Upon the sustained balance of these two depends the amount of energy, capable of manifesting itself in productive work.

Those who live in cities breathe an atmosphere made impure by their own life products and their industrial activities. The sun, from which all life and energy are derived, we avoid, coming in contact with it at second hand, through the consumption of food, which represents its stored energy. Thus decreasing the amount of energy supplied, we demand a maximum of work. The saving clause is the annual vacation, and for the great mass it is wisely taken in the summer. The much abused body and overworked brain are turned out to grass. The one is enriched and waxes strong on the abundant oxygen of the

The above article was written as an "Editorial by The Laity" at the request of The Chicago Tribune, by Dr. Wiggin, formerly of this city, and was published in the Sunday issue. The compliment thus paid Dr. Wiggin was a high one, but the article certainly shows that it was well merited.

## OTHINEL CARR DEAD AN EARLY SETTLER

Moved to Rock County in 1836 When There Were But Two Houses in Janesville.

Othinel Carr died on July 30, 1900, at Clymers, Ind. He was born in Massachusetts on August 14, 1819, being one of a pair of twin boys. He removed to Rock county, Wis., in 1838 when there were but two houses where Janesville now stands. His early life was spent in this town. In 1878 he and his son Oliver bought a farm in West Point, Columbia county, and he removed there with his family. His wife died in 1894. He then came to Clymers, Ind., to live with his daughter, Mrs. Amanda Knickerbocker, living there until his death on July 30, 1900. He was in apparently good health for his years. Only two days before his death he walked a quarter of a mile and had made this a practice during the summer. His death was due to heart and kidney trouble. He leaves two daughters, Mrs. H. L. Knickerbocker, Clymers, Ind., and Mrs. Eli E. Smith, West Point, Columbia county, Wis. He was buried by the side of his wife in Garden Bluff cemetery at West Point, Wis.

## PICNIC AT EDGERTON

The G. A. and B. Festival Drew a Large Crowd—Chief Attractions Were the Horse Races.

The T. A. and B. picnic at the Edgerton Driving park yesterday drew an immense crowd to that city. The chief attraction of the day were the horse races and judges of racing declared that they were well worth going to see.

The judges were O. F. Nowlan and L. D. Brewer of this city and Mr. Hanson of Cambridge. Mr. McGinnis of Edgerton was the starter.

In the free for all Mabbett's horse of Edgerton won first money with Cohn's horse in second place. They were the only entries, but it was a great race. Best time for the half mile, 1:06.

James Conway's horse won the 2:30 trot with a Beloit horse, Arabella, second. Best time, 1:13.

The green race was won by H. S. Ames' mare, Alice, who took three heats. Gen. Howe won two heats. Best time, 1:20.

## UNUSUAL SCENE IN KENTUCKY.

Witnesses Impugn One Another's Veracity, Then Speak Cordially.

Georgetown, Ky., Aug. 9.—In the Goebel assassination trial Dr. Prewitt denied that he told Wharton Golden he had no doubt that "Tallow Dick" Combs fired the shot that killed Goebel and denied that he said Combs came into the adjutant-general's office after the shooting. Witness also said he had seen Golden a day or two ago and denounced him as a liar. As the witness left the stand, Golden was recalled and he and Prewitt met face to face. The spectators in the courtroom watched them closely to see how they greeted each other. They spoke cordially and Golden took the stand and denied that he had made certain statements which Prewitt claimed he had made and also repeated what he claimed Prewitt told him in regard to "Tallow Dick" Combs in connection with the shooting. Dr. Prewitt was again recalled and said that he was with Wharton Golden when the latter was first informed by Tom Cromwell that he might be arrested in connection with the assassination. Prewitt said Golden told a few minutes later that they were arranging to put the crime on Powers, but that the latter was innocent.

## Wisconsin Republican Ticket.

Milwaukee, Wis., Aug. 9.—Robert M. La Follette of Madison was nominated for Governor of Wisconsin by the Republicans in their state convention by acclamation. A full list of candidates was selected in the same manner, all the nominees except the head of the ticket being the present holders of the offices for which they are nominated. The Republican platform and national administration were endorsed. Following is the ticket: Governor, Robert M. La Follette, Madison; Lieutenant-Governor, Jesse Stone, Watertown; Secretary of State, William H. Froehlich, Jackson; State Treasurer, James O. Davidson, Soldiers' Grove; Attorney General, Emmett R. Hicks, Oshkosh; State Superintendent, Lorenzo D. Harvey, Milwaukee; Railroad Commissioner, Graham L. Rice, West Superior; Insurance Commissioner, Emil Giljohann, Milwaukee; Chairman of State Central Committee, General George E. Bryant, Madison.

## Cast Ashes Upon the Water.

Davenport, Iowa, Aug. 9.—From a pier of the bridge over the Mississippi River the ashes of Charles M. Bicknell of Des Moines, lately a student at the University of Chicago were cast upon the Father of Waters to be borne to their last resting place. The ceremony was conducted by Rev. Eleanor Gordon and Rev. Marion Murdock, Unitarian ministers, at the request of the family of the deceased. A short time previously the remains had been incinerated at the Davenport institution in the presence of the Bicknell family and their friends.

## Chicago's Population, 1,607,000.

Chicago, Aug. 9.—Returns from the United States census enumeration in Chicago will show this city to have a population between 1,695,000 and 1,697,000. Washington has not given out these figures officially, and the exact totals may not be proved for several days, because of work yet to be done on cities whose populations will be given out before those of Chicago. It is certain, however, that the official total will not be below the one, nor above the other group of figures.

## Record Time on Vandulla.

Terre Haute, Ind., Aug. 9.—The Jackson club special, six heavily loaded coaches and one baggage car, to the Bryan notification, established a new record for fast time on this division of the Vandulla line. ## Moves His Office to the Lawn.

## Heat Breaks a Record.

Chicago, Aug. 9.—The present hot spell has broken the weather office record. The average maximum temperature for the past five days was 93.2. In July, 1892, when there was a hot spell of five days, the average maximum temperature was only 92.5. Four additional deaths from heat are reported and seventeen prostrations.

## Providence Has 175,597.

Washington, Aug. 9.—The population of Providence, R. I., according to the recent census is 175,597. In 1890 the population was 132,146. The increase in ten years is 32.38 per cent.

## WORK AHEAD.

## National Success Dependent on New York Republicans.

The Republicans of the state of New York cannot understand too soon or too well that success in this election depends upon them. This is the Empire State, which casts the largest electoral vote in the Union, and it is also the pivotal state, upon which the result depends. It is also a close and doubtful state. The whole result depends upon what the issues are, how they are regarded by the voters here and how active and enthusiastic the Republicans are. Division, apathy or overconfidence will be fatal.

The issues are well in favor of Republican success. The chief issue is the approval of an administration which has been singularly fortunate in avoiding mistakes. The administration's policies have all led to success and prosperity. The greatest prosperity in the history of the United States has occurred during the past three years and since the restoration of public confidence and under the operations of the Dingley tariff. The free silver and free trade hobbies of the Democrats and side show parties under the wings of the Democratic party had accomplished the ruin of business when the "advance agent of prosperity" was permitted to move into the White House. Every aspect was changed immediately and as if by magic. All the howls about "imperialism" and wasteful and wicked wars and un-American policies do not change the fact that the policies condemned have brought order out of chaos and industrial prosperity out of stagnation and industrial despair.

The national policies of the administration are all right and beneficial to the country, and the best thing the country can do is to sustain them. Indorsement will please President McKinley, but it will benefit the country and help it to continue to prosper and grow rich. The masses of this country are never poor from choice, and therefore it is not reasonable to suppose that they will deliberately vote to return to the poverty making Democratic policies from which they recently escaped.—Binghamton (N. Y.) Republican.

## THE BEST THEY KNOW.

**Y**OU remember the old lady who rode for the first time on a railway train. There was a frightful collision, but when the rescuers reached her she was quite calm. She said she supposed they always stopped that way. The story well illustrates why so many women are satisfied to live without Ivory Soap. They have never tried it! Naturally enough, they think that annoying odors, sharp chemicals, and wasteful greasiness are common to all soaps.

THE TICKET.

The republican state ticket is now in the field, the nominations having been made yesterday afternoon by acclamation. The factional fight that has marked the conventions of the past years was not in evidence, and all was harmony and good feeling. Mr. LaFollette's nomination was the occasion of an enthusiastic demonstration and all the old officers were renominated without opposition.

Wisconsin republicans go into the second battle with unbroken ranks. The whole fight will be upon the enemy and no time will be lost treating "local irritations" upon the body politic. "Harmony" is the word, and "work" is the rule. Wisconsin will be heard from with no uncertain sound this fall, and her voice as loosed at the polls, will be echoed back from the whole country.

Democratic speakers and democratic newspapers will doubtless attempt to tear open the sores that time has healed, and will fill the air with charges and counter charges. All such talk will go for naught, however. The people of Wisconsin know what they want and they know where to find it—they want the best government possible, and they know they can only secure it through the republican party.

JEFFERSON AND THE CONSTITUTION.

Chicago Times-Herald—We are grieved to perceive that the Chicago Record and several of our own correspondents are inclined to take the inferences of historians against the written word of Thomas Jefferson as to the constitutionality of the Louisiana purchase. This can be best illustrated by setting the declaration of Jefferson in his letter to Gallatin in January, 1803, in a parallel column with the statement from "The Public Domain" cited with great gusto by The Record:

JEFFERSON'S LETTER TO THE RECORD'S CITATION.  
You are right, in my President Jefferson's opinion, as to Mr. L. S. had always a strict proposition; there is no construction, of the constitutional difficulty of this treaty, territory, and whether, which acquired an independence, it may possess province, and be taken into the Union, as he has by the Constitution, as know of no warrant in it now stands, will be the Constitution for come a question of ex-acta purchase.

In a matter like this The Times-Herald will take Jefferson's letter against a whole wilderness of historians.

The talk of Jefferson being unprepared for or embarrassed by the treaty negotiated by Monroe is rubbish. As early as January, 1793, he had his eye on "the country along the Missouri and thence westwardly to the Pacific Ocean," and he never abandoned it. The Lewis and Clark exploration, for which he secured a secret appropriation of \$2,500 in January, 1803, grew out of his desire to expand the United States west of the Mississippi.

Monroe acted on secret instructions

from Jefferson given to him verbally, "so full and minute" that "the negotiators should be fully possessed of every idea we have on the subject, so as to meet the propositions of the opposite party (France) in whatever form they may be offered"—vide Jefferson's letter to Livingston, Feb. 8, 1803.

On April 30, 1803, Jefferson wrote: "I am not sanguine in obtaining a cession of New Orleans for money." But even as he wrote Monroe and Livingston had succeeded.

In all his letters Jefferson uses the terms New Orleans and Louisiana indifferently. When he wished to be definite he spoke of the "Islands of New Orleans."

It is interesting to note Jefferson's own view of the attempt of The Record and its historians to rob him of credit for the splendid potentialities of the Louisiana purchase. Writing to General Gates on July 11, 1803, he accepted with pleasure "and with pleasure reciprocate your congratulations on the acquisition of Louisiana: for it is a subject of mutual congratulations, as it interests every man in the nation." Farther along in the same letter we find this direct reply to The Record's attempt to derogate from Jefferson's full share of credit for the treaty that gave us an empire beside which the Philippines are a bauble:

I find our opposition is very willing to pluck feathers from Monroe, although not fond of sticking them into Livingston's coat. The truth is both have a just portion of merit, and were it necessary or proper could be shown that each has rendered a peculiar service and of important value. These grumblers, too, are very uneasy lest the administration should share of which they are so much afraid. They would have been crushed by the accident of war. They would have been crushed by the accident of war. They would have been crushed by the accident of war.

The acquisition of Louisiana was Jefferson's achievement, secretly conceived, long cherished, adroitly managed and finally shrewdly accomplished. He never apologized for it—or feared that it was unconstitutional. It is the chief glory of his administration.

The republicans of Rock county would have preferred that no change be made in the chairmanship of the republican state central committee, as Mr. Treat's work has been eminently satisfactory. As the state convention thought a change desirable it has been made and General George E. Bryant is now at the head of the committee. The choice will be satisfactory to everyone, whether they agree as to the advisability of making a change or not.

The Wisconsin tobacco crop, according to advices from Edgerton, will be the finest in years. Edgerton appears to be in a happy frame of mind these days.

The democratic side-show can now be held, the great event under the main canvas having already been pulled off.

A HIDEOUS BIRD.

The Queer Appearance and Actions of the Adjutant.

"The plainest of the large wading birds to be seen in many of our zoological gardens is the adjutant, a native of India and Africa," remarked a naturalist to a Washington Star writer. "Nature seems to have designed him in an experimental mood and, disgusted with her handiwork, to have turned him out unfinished. The young adjutant, with his bald head and beak like a pickax, is repulsively ugly, and the melancholy gravity of his demeanor suggests that he has seen himself mirrored in some still pond, and the revelation is weighing upon his mind. As he grows older, however, and begins to take a lively interest in dead rats, the effects of the shock to his vanity pass away. He becomes jaunty—nay, frivolous—and in sheer lightness of heart attends dancing parties on the mud slopes of his inclosure, where he ducks and bows and kicks and scrapes with half-distended wings, to the admiration of his feathered companions. All the cranes and storks are great dancers, and in the early pairing season you may see really graceful terpsichorean performances in the paddock of any zoo where they are on exhibition. An elderly adjutant practicing his steps all by himself is a spectacle the sympathetic observer can hardly regard without mingled laughter and tears. He is so awkward, so ungainly, yet so cheerfully earnest about it, you are sorry for the deluded bird, and yet cannot refrain from hoping that the heart of the hen adjutant will be moved by the pathetic display of ineptitude."

Has Made Silk for Centuries.

The manufacture of silk has for several centuries been the chief business of Lyons, France. The Romans established works there in the third century A. D. for the manufacture of cloth of gold and silver, but every vestige of these was swept away by northern invasions. The present silk industry was taken there from Italy and Spain and the Levant about the year 1466, under the fostering care of Louis XI.

Anarchists Post Placards.

Antwerp, Aug. 9.—Autographic anarchistic placards have been found posted on the walls of public edifices here, notably on the palace of the king and the prison, announcing that the anarchist propaganda continues. The Journal says many anarchists from London, on their way to Paris, have passed through this city, shadowed by English detectives.

Clinton, Aug. 9.—The teachers engaged for the ensuing year are: Principal, Prof. R. E. Loveland; 1st assistant, O. D. Antisdel, Afton; 2nd assistant, Miss P. Ryan. The question of how to reach the depot on the Gardner farm, on the new railroad, which has puzzled a few, has been decided by the R. R. company simply changing the point of location, the present site being close to the public road as the R. R. enters the eastern boundary of the farm.

The barley market has opened up. Some are getting forty cents with a yield of thirty bushels per acre. It is not as discouraging as it might be for the farmer.

SOUTH'S OPPORTUNITY.

Advantage to Be Gained by Increasing Its Republican Vote.

A dispatch of June 22 from Charlotte, N. C., says: "The ticket nominated at Philadelphia is satisfactory to the business men of this part of the country. Men who own cotton mills say openly that they will support McKinley and Roosevelt. D. W. Oates, cashier of the First National bank and president of the Charlotte cotton mills, said tonight: "The ticket is a good, and it will be supported by the business men of the state generally. I voted for McKinley four years ago and will gladly do it again. I meet former Democrats every day who will vote the Republican national ticket this year. Many business men who did not vote at all in 1896 will vote for McKinley in November."

"More than a dozen leading mill men have expressed the same sentiments today. These men were loyal supporters of the Democratic party before 1896. Two-thirds of the cotton mill men in the state will vote for McKinley and Roosevelt."

This is good news, and the prediction of a heavy increase of the Republican vote in North Carolina ought to come true whether it does or not. It ought to come true in every southern state. A big gain in the Republican vote this year and an increase in the number of Republicans elected from southern congressional districts would be greatly to the advantage of the south. What the south needs is a better showing of business and political sense, more tangible evidences of enlightenment and progress, more convincing proof of the spread of progress and development along up to date lines. In no way could the south furnish a more conclusive demonstration of the dawn of a better and wiser order of things—More of latter day Republicanism and less of antiquated Bourbonism is the crying need of the south today. A rousing vote for McKinley and Roosevelt is the south's opportunity.

Exports to Porto Rico.

Exports to Porto Rico have more than doubled under American administration. So they will to the Philippines as soon as the Philippines accept the free trade offered them by President McKinley and settle down to the agricultural and commercial development of their country.

No Time to Listen.

It may be assumed with a good degree of confidence that this campaign will not be as profitable for Mr. Bryan as was the last. The people will be slow to part with their good money to hear hard luck stories.

Squarely Met.

The Republican platform doesn't equivocate or dodge. Every issue is fairly met and frankly treated.

Free Lectures in New York.

## JOLLY CROWD OFF FOR SAENGERFEST

CONCORDIA SOCIETY SINGERS LEFT THIS MORNING.

The Special Train Containing the Milwaukee Contingent of Vocalists Reached Here at 9:35 O'clock and Loads Up With Janesville People Bound For Burlington, Ia.

It was a jolly crowd that gathered at the Chicago, Milwaukee & St. Paul station this morning. The occasion of the gathering was the Saengerfest, which commenced at Burlington, Iowa, today. The Concordia Singing society was under the leadership of Prof. Thiele. It was gaily decorated with badges, each member carrying a decorated cane and a small American flag. The society marched from Concordia hall to the station, to greet other societies who were on a special train, and whom they joined on the trip to Burlington.

Those from here who attended the Saengerfest and who took part in the concerts are:

Prof. Wm. Thiele, who has charge of the singers.

First Tenors—W. H. Kienow, Ed. O. Smith, Philip Rees, C. H. Kueck. Second Tenors—H. W. Frick, Carl Pabst, Emil Herman.

First Basses—Wm. Ernst, Carl H. Brockhaus, C. E. Kienow. Second Basses—Harry P. Robinson, Wm. Lennart.

Others who will go from this city are Mr. and Mrs. Wm. Funk, Miss Lottie Pabst and Mr. and Mrs. John Lempho. Messrs. James Fathens, George Rant-schler, Carl Schmoedel, Edward Poni-chen, Herman Buchholz, August Bau-mann and Theodore Bayer of Fort Atkinson.

At 9:35 o'clock a special train of nine coaches in charge of City Passenger Agent Martin Cramer of Milwaukee, pulled into the station. From that time until it departed greetings were exchanged between the members of the different societies in a genuine German way. From the looks of the commissary department no one on the train need be dry on the trip to Burlington. They were a jolly crowd and all that was needed was a look at the happy faces to see they were getting all the enjoyment possible out of the trip.

The special band societies from Milwaukee, Waukesha, Burlington, Oconomowoc, LaCrosse and Sheboygan on board. The Monroes and Madison societies also joined the special here and the Freeport society will be picked up on the way.

## FIRST REGIMENT IS DOING SPLENDIDLY

Last Practice March at Camp Douglas is on Today—Capt. Achterberg Officer of the Day.

Camp Harnden, Camp Douglas, Wis., Aug. 9.—Co. M. broke the record for this year in company firing by scoring 215 hits with fifty-two men. The volleys were exceptionally even today with the exception of a few of the Beloit men. All the volley scores were high, the weather conditions being excellent.

Today's practice march began at 9 o'clock this morning. The line of march for the regiment was over the road north of the range, called the Necedah road. The troop marched in three detachments, one accompanying the regiment and each of the other two following a different road. The troops will meet at Buckley's bridge, about three miles from New Lisbon and seven from the camp, where they will encamp for the night, returning at an early hour tomorrow morning.

The regiment went out for their last parade last evening. Lieut. Col. Joachim commander and Adj. Gen. Boardman and Col. Patton occupied the reviewing stand. The regiment seemed to recognize the fact that this was their last appearance for they did splendidly. The manual of arms showed a marked improvement over the previous work of the week.

Details for today are: Officer of the day, Capt. Achterberg; officer of the guard, Lieut. Baldwin; junior officer of the guard, Lieut. Wagner.

## ENTERTAINED BY EASTERN STARS

An invitation was received from Mr. and Mrs. F. C. Jenkins extending the use of their house and spacious grounds to the order. It was decided to accept the invitation for Tuesday, August 14, and on that date the order will enjoy a picnic supper and entertainment in the evening at the home of Mr. and Mrs. Jenkins.

## GOLFERS OUT ON A PLEASURE TRIP

MINNEAPOLIS CLUB MEMBERS IN JANESVILLE TODAY.

Match Game Being Played With Local Talent In the Buckleto Links This Afternoon—Visitors Will Leave This Evening For Chicago On the 7:15 Train.

The match game of golf between the team from the Minneapolis club of Minneapolis and a team from the Minneapolis golf club will take place this afternoon and will be a hot game in more ways than one if the weather has anything to do with it.

The Minneapolis party are mostly business men out on a pleasure trip and take this way of enjoying themselves. They are first class players and a pleasant lot of gentlemen and thorough sportsmen. They are making the trip in a private sleeper and arrived in the city on the vestibule at 6:15 this morning. A delegation of club members met them at the train and took them to the Grand Hotel for breakfast. After breakfast they were taken to the grounds where the morning was spent in playing over the course and getting accustomed to the lay of the grounds.

The visitors report themselves very much pleased with the course and think it one of the best nine hole courses in the country. The Minneapolis party consists of:

B. F. Johnson, A. L. Belknap, C. T. Jaffray, John W. See, F. C. Hale, F. C. Hale, C. S. Brackett, E. S. Woodworth, C. E. Hood, S. D. Tullman.

After the preliminary rounds at the grounds were played, the captains of the respective teams picked the pairs which would contest this afternoon. They are as follows:

MINNEAPOLIS. A. Schaller, F. E. Fildell, C. Schaller, H. G. Carter, C. C. MacLean, J. P. Baker, O. Sutherland, Chester Brewer, Leo Brownell, H. H. McKinney, F. B. Echlin, S. D. Tullman.

The first pair were started at 1:30 in order that the visitors might catch the 7:15 train for Chicago, where they have two games arranged for Friday and Saturday.

## RECORD BROKEN BY HOT WEATHER SPELL

PRESENT WAVE EQUALS HIGHEST PREVIOUS FIGURES.

Another Schorcher Today—Mercury Still Above 90—There Are No Signs That The End Is In Sight—May Last For Three or Four Days Longer.

Weather Forecast—Fair tonight, and Friday high temperature.

All past records for long continued hot weather in Janesville have been equaled during the present week, and when today's temperatures have been taken it is more than probable that a new record will have been made. For five days the mercury has made regular jaunts well above the 90 mark, and with no relief in sight. The mercury reached 91 at 1 o'clock this afternoon.

The city has not suffered from such a long continued spell of extremely hot weather since the summer of 1892. In July of that year the thermometer for five consecutive days registered temperatures above 90 degrees. The maximum temperature at that time, however, was 93 degrees, while last Sunday the 94 mark was reached. The average temperature this time has been higher than during the hot wave of '92.

The weather bureau at Chicago this morning issued the following:

"The weather conditions remain unchanged and indicate no relief from the excessive heat. There are no indications whatever showing prospects of immediate lower temperature. The record for continuous hot waves in Chicago during the past two years has been broken by the present high temperature, which has lasted now more than five consecutive days."

Heat Kills Many Infants. Milwaukee, Aug. 9.—The heat is causing many deaths among infants. During the last twenty-four hours the deaths of twenty children under 4 years old have been reported to the health department. This is an extraordinary record for Milwaukee. Besides the infants there was one other death and four prostrations. It was 95 degrees in the shade here today and the sweltering weather still continues.

For five days Oshkosh has sweltered. The government thermometer has never fallen below 90 degrees. Today it registered 96 degrees. The suffering there has been intense and there have been four deaths directly ascribable to the heat.

Everett Prior, of 159 Green street, Jersey City, N. J., rebelled against his father's orders to wash dishes, cook meals and perform other duties about the house, and ran away from home on June 23. He was arraigned before Magistrate Zeller in the Harlem police court. When questioned by the magistrate the boy said he had left home because his father abused him and wanted to make a "girl" of him. Magistrate Zeller told the boy he had done right. He then gave the boy into the custody of his uncle.

Whoooping-Cough Party. A whooping-cough party was given by little Dorothy Smith, of Huntington, L. I., a few days ago. The invitations sent to her little friends contained a clause providing that the invitation was not to be accepted unless the recipient had the whooping-cough at the time or else had recently recovered from it. Twenty-five whoopers or ex-whoopers responded.

## LATE TELEGRAPHIC NEWS..

ENGLAND DEMANDS  
A LIFE FOR A LIFEBENT ON EXACTING PENALTY  
IF ENVOYS ARE SLAIN.

Policy of Retribution Announced in the House of Commons—Foreign Ministers Were Still Alive At Peking On August 3—Three Russians Court a Battle.

New York, Aug. 9.—A dispatch to the Journal and Advertiser from London says that England has notified the Chinese government that its members will be held personally responsible for the safety of the ministers and other foreigners in Peking. "An eye for an eye and a tooth for a tooth" will be rigorously exacted. For every minister slain a Chinese official must die. Presumably the threat applies to the member of the royal family from the emperor and dowager empress, through all the grades of princes of the blood royal, down to tsung-li-yamen and other officials.

This policy of retribution was announced in the house of commons by Mr. Broderick, parliamentary secretary of the foreign office. He added that further information to the house would serve no useful purpose.

A member asked if it was true, as announced by Li Hung Chang, that the ministers had left Peking under escort of Jung Lu. Mr. Broderick said he had no confirmation of the report.

The reports about the ministers are conflicting. One from Taku says the commander of the Italian cruiser Elba has a dispatch from the viceroy of Shantung, saying the legations were safe on July 30, and that measures were being taken to insure their safe transport to Tientsin.

Then there is one from Shanghai saying the Japanese consul had received a message that they were safe Aug. 1, but expected a renewal of the attack, and had only six days' provisions and twenty-five rounds of ammunition. The same report says the Japanese secretary of legation had died of wounds.

And Gen. Chaffee's message to Washington, saying the ministers were safe on July 28, completes the list.

It is not believed here that the ministers have started from Peking.

## RUSSIANS COURT A BATTLE.

Move Against Village Near Peking, Where Chinese Are Intrenched.

New York, Aug. 9.—A dispatch to the Journal and Advertiser, from Chafco, says: The Russians have gone out to a village east of Peking, where the Chinese are strongly intrenched. The Japanese came in touch with the Chinese outposts Sunday.

Boats have been sunk in the Pei-Ho to hinder progress, while the river bank has been cut, flooding the country to the east.

The Chinese have mined the railway and filled the river with torpedoes. They have three large guns and many smaller ones at Peking.

Gen. Ma is in command. The viceroy meditates escape to Hwang-Huei-Tien, but he may be intercepted.

## Peking Russian Graveyard.

Chefoo, Aug. 9.—During the engagement on Sunday, which preceded the occupation of Peking by the allies, the Russians lost 500 killed and the British fifty. The Germans and Japanese also lost heavily. The road to Peking is supposed to be open.

## Choate to Be Arbitrator.

London, Aug. 9.—United States Ambassador Choate has been appointed arbitrator between the British and Chinese governments and the case of the sinking of the British dispatch boat Kow Shing during the China-Japanese war.

## LIVE IN PEKING AUG. 3.

MacDonald Sends a Cipher Message Reporting the Garrison Well.

London, Aug. 9.—In the house of commons today Mr. Broderick, parliamentary secretary for the foreign office, read a telegram from Sir Claude MacDonald, British minister to China, received in cipher at the foreign office this morning. The dispatch was in reply to a government message and bore date of Peking, Aug. 3. It was as follows:

"I have today received your cipher telegram, forwarded to me by the Chinese minister. The shell and cannon fire ceased on July 16, but the rifle fire has continued from the Chinese positions, held by government troops and Boxers, intermittently ever since. The casualties since then have been slight. Except one private of marines all the wounded are doing well. The rest of the British in the legation are well, including the whole garrison.

"The total of killed is sixty and wounded 110. We have strengthened our fortifications. We have over 200 women and children refugees in the legation. The Chinese government has refused transmission of telegrams in cipher until now."

Mr. Broderick also read the following dispatch from Admiral Seymour, filed at Chefoo, Aug. 6:

"The allies, about 12,000 strong, attacked the Chinese intrenched position at Hsiku, about two miles outside Tientsin, early this morning. The Chinese were driven out and retired northward, pursued by the allies, who

occupied Peking. Transports followed up the troops. By road and river the advance upon Peking has been begun."

## COLONIAL PLAN ANGERS CANADA

Idea That Dominion Troops Will Settle in Transvaal Is Resented.

London, Aug. 9.—Canada resents Great Britain's attempt to encourage emigration to South Africa at the expense of the other colonies, according to W. T. R. Preston, chief of the dominion emigration bureau in London. Speaking to The Daily News correspondent, Mr. Preston said: "If the colonial office persists in offering inducements to British colonists to settle in the new South Africa country, it could not undertake a programme more likely to engender a bitter feeling toward the mother country. We also resent the proposal that the Canadian volunteers settle in the conquered territory. They were never lent for such a purpose. Canada's undeveloped agricultural area is too vast to permit of transplanting any portion of her pastoral population. The imperial authorities' scheme is exasperating, in view of the special efforts we are making to influence exactly that class of emigrants to land on our shores." Mr. Preston explained that Canada's recent strict laws against immigration are due to the influx of a number of Roumanian Jews. "These people," he said, "are artisans, of which class we have already an oversupply. We notified the Atlantic steamship lines that the indiscriminate transport of refugees must stop. We have no room for any class but farmers."

Will Send Word to the Pope.

Philadelphia, Pa., Aug. 9.—The thirtieth annual convention of the Catholic Total Abstinence Union of America is in session here. About 300 delegates are in attendance from nearly every state in the Union. A communication was received from Archbishop Martinelli, papal delegate, placing the stamp of his approval on the work of the union. The convention decided to send a cablegram to the pope giving a summary of the work of the union during the thirty years of its existence, and asking the papal benediction.

Senator Tillman's Effective Reading.

Frequent declarations are made among persons who attended the Democratic national convention that Senator Tillman of South Carolina, read the platform more effectively than anyone who ever before attempted such a job.

## FOR MIDDLE-AGED WOMEN.

Two Letters from Women Helped Through the "Change of Life" by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—When I first wrote to you I was in a very bad condition. I was passing through the change of life, and the doctors said I had bladder and liver trouble. I had suffered for nine years. Doctors failed to do me any good. Since I have taken Lydia E. Pinkham's Vegetable Compound, my health has improved very much. I will gladly recommend your medicine to others and am sure that it will prove as great a blessing to them as it has to me."—MRS. GEO. E. JUNE, 901 DeKalb Ave., Brooklyn, N. Y.

Relief Came Promptly

"DEAR MRS. PINKHAM:—I had been under treatment with the doctors for four years, and seemed to get no better. I thought I would try your medicine. My trouble was change of life, and I must say that I never had anything help me so much as Lydia E. Pinkham's Vegetable Compound. Relief came almost immediately. I have better health now than I ever had. I feel like a new woman, perfectly strong. I give Lydia E. Pinkham's Compound all the credit, and would not do without her medicine for anything. I have recommended it to several of my friends. There is no need of women suffering so much for Mrs. Pinkham's remedies are a sure cure."—MARIA BUTLER, Bridge-water, Ill.

Another Woman Helped

"DEAR MRS. PINKHAM:—I took Lydia E. Pinkham's Vegetable Compound during change of life and derived great benefit from its use."—MARY E. JAMES, 136 Ceydon St., Bradford, Pa.

## BOERS CAPTURE HOARE.

Elands River Garrison Supposed to Have Been Whipped.

## KITCHENER IS IN PURSUIT

Methuen Comes in Contact with De Wet. Advance Guard—Boer Delegation in Berlin—Trying to Get Measure of Independence.

Pretoria, Aug. 9.—Delarey, hearing of Jan-Hamilton's approach toward Rustenberg and seeing that he had no chance of capturing Baden-Powell, hurried off to Elands river. Hamilton reported that firing in the Elands river direction ceased Monday and that Lieutenant-Colonel Hoare's garrison had evidently been captured.

Hamilton left Rustenberg Tuesday morning, bringing Baden-Powell's force with him.

De Wet commenced crossing the Vaal river Monday. Kitchener is now moving in pursuit. Methuen, on the right bank of the Vaal, has evidently come into contact with De Wet's advance guard, as his guns were heard by Kitchener Tuesday morning.

Berlin, Aug. 9.—The boer delegation and Dr. Leyds arrived here Wednesday. They were received Thursday at the foreign office by Herr von Der Eulth, Count von Eulow's representative. It is understood that the purpose of their visit to Berlin and also to St. Petersburg, where they will go next, is to induce Germany and Russia, when peace comes, to try to get some measure of independence for the boers.

## Robbers Use the Telephone.

The boldness of two burglars, who secured \$500 worth of jewelry at B. Winegerter's store at Akron, Ohio, amazes the police of that town. By long-distance telephone the men called Winegerter from Cleveland and offered for \$300 to return the property stolen. They gave a correct list of the articles taken, and wished to arrange a meeting with attorneys. The jeweler tried to secure a personal interview without success, and at last, after several conferences by telephone, he refused to pay the money without seeing the jewelry.

## All Glassware to Be Higher.

Atlantic City, N. J., Aug. 9.—Glassware will cost dealers and purchasers 10 per cent more after Sept. 1 than before. This is not an unnatural sequence of the faction of the manufacturers in conference with the bottle blowers of granting an increase of 7 per cent in wages. About forty members of the manufacturers' association attended the meeting and the decision to raise the price of all kinds of manufactured glass was unanimous.

## Priest Dies While Bathing.

Bay City, Mich., Aug. 9.—Rev. Father C. J. Roche, pastor of St. John's Catholic Church, Essexville, and dean of Saginaw Valley, was drowned in Saginaw Bay while bathing. Two boys found the body lying face downward in shallow water near the waterworks. The remains were brought here and prepared for burial. Father Roche had charge of the Essexville church fourteen years. It is thought he was overcome by heat and fainted in the water.

## The President's Plans.

Canton, Ohio, Aug. 9.—The President's next trip to Washington will be made on Thursday or Friday of next week. He will probably be accompanied by Mrs. McKinley and remain for several days. On Saturday he will receive the Cuban school teachers, now in this country, at the White House, and on Sunday he will attend memorial funeral services in honor of the late King Humbert of Italy, for which arrangements are being made by Baron Fava, the Italian ambassador.

## Says He Is Lander.

Kansas City, Mo., Aug. 9.—A special from El Paso, Tex., says that a man arrested confessed that his name was George R. Landers and that he had borrowed \$60,000 from the Evans-Snyder-Buell company of Kansas City on cattle that afterward died. He said he took advantage of the bankruptcy law in the court at Wichita, Kan., a year ago, and then went into hiding. The man was driving overland from Mexico.

"If I were sick and wanted to get well, I'd find out how some one else got well who had the same sort of sickness as mine."

If your sickness is like hers, Mrs. Jacobs' story will interest you.

"I was very sick indeed," writes Mrs. Jacobs, of Felton, Kent Co., Delaware, "and our family doctor said I had consumption. I thought I must die soon for I felt so awful bad. Had a bad cough, spit blood, was very short of breath, had pains in my chest and right lung, and also had dyspepsia. Before I took your 'Golden Medical Discovery' and 'Pleasant Pellets' I was so weak I could not sweep a room, and now I can do a small washing, and I feel like a new person. I believe that the Lord and your medicine have saved my life. I was sick over two years. I took 13 bottles of the 'Golden Medical Discovery,' and four vials of Dr. Pierce's Pellets."

Are you sick? Are your lungs "weak"? Have you obstinate lingering cough, with bleeding lungs, weakness and emaciation? Thousands in just your case have been cured by the use of

### DR. PIERCE'S GOLDEN MEDICAL DISCOVERY.

It always helps. It almost always cures. Sick persons are invited to consult Dr. Pierce by letter absolutely without fee or charge. All correspondence is strictly private. Write and get a specialist's opinion on your case, free. Address Dr. R. V. Pierce, Buffalo, N. Y.

### OPENING THE MILLS.

How the Republican Policy Affected the Workingman.

The Republican national committee sent out blanks to members of the national association of manufacturers asking them to furnish the number of men whom they had employed in each year from 1850 to 1899, inclusive, as well as the total amount of wages which they had paid during the same years.

There were 290 replies. They showed a steady increase in the number of hands employed in the 200 factories until the year 1893. There was an immediate drop of 10,000 men in 1894, when they employed 60,453 men. In 1895 they employed 109,600; in 1896, 131,425 men; and last year 174,645 men. In short the number of wage earners employed by these same 200 factories increased from 60,453 men in 1893 to 174,645 last year—almost doubled.

But the contrast is even more striking when applied to the amount of wages paid, and the following table shows the returns received from the 200 manufacturers:

Year	Wages paid
1893	\$15,123,491
1894	\$15,123,491
1895	\$15,123,491
1896	\$15,123,491
1897	\$15,123,491
1898	\$15,123,491
1899	\$15,123,491

The amount of wages paid by these same 200 manufacturers increased steadily from 1893 to 1899, then there was a drop in 1894 and another drop in 1895. During the next two years wages picked up, but it was not until 1897 that these same manufacturers were paying out as much money in wages as they had paid out in 1892.

Between 1894 and 1899 the 200 manufacturers had increased their pay rolls by upward of \$28,000,000. In fact, the amount of wages which they distributed last year was almost double what they paid out in 1894. Apply this to the whole country and try to realize what benefit "opening the mills" has been to American wage earners and to those who feed and clothe them.

For American Ships. Five hundred million dollars would be expended in the United States in establishing shipyards and in building ships if the shipping bill were passed. If it fails, this country will keep on spending \$200,000,000 a year in paying foreign ships for doing what American ships properly protected would do. The Republicans favor American ships for American commerce, but the Democrats are opposed to legislation that will cause their construction. The Democrats favor, rather, the purchase of foreign (chiefly British) ships with which to revive American shipping upon the seas.

### NEW CABLE STATION.

One to Be Built on a Coral Dot in the Pacific Ocean.

Uncle Sam is about to build a home for lovers of solitude on one of the far-off Midway Islands, where there is to be a cable station when the cable from San Francisco to Manila is laid, says the Honolulu correspondent of the New York World. Those who go to take charge of this wildest of all posts in the American government service will have to be prepared to spend their days on what seems like nothing more than a big rock in the midst of the broad Pacific ocean.

The largest of the two Midway Islands, Sandy Island, is only about a mile square. The other one, known as Eastern Island, is half a mile by three-quarters. As this is the more fertile and habitable of the two it will probably be the one selected for the cable station. Even this island is almost without trees, and it is absolutely without interesting features. Life on Eastern Midway Island will be as dull and monotonous and bound by as dreary a routine as existence in Joliet or Sing Sing.

The United States tug *Iroquois*, in charge of Lieutenant Commander Pond, U. S. N., is soon to leave Honolulu to make the surveys and charts that are necessary before the government can go ahead with its plans. It is a journey of 1,200 miles from Honolulu to the Midway islands, which when reached are nothing but a collection of bits of coral, a strangely formed wall of coral and two little patches of land which rise so little out of the water that they seem to be nearly submerged when winter storms rise around them. There will be no monotony of weather during winter months for the two or three cable operators and attendants who will make their homes in this outlandish spot. When the fearful winter storms come, winds and rain sweep the little island bare of everything.

Midway islands are near nowhere. The men will get mail only when Uncle Sam sends a vessel with supplies. They will have one occupation. Day and night, year in and year out, the cable will have to be watched. There will probably never be a moment out of any 24 hours when messages will not be flying under the Pacific to Midway and from Midway on to Honolulu or Manila. It will be a ceaseless routine, turns at the instruments, sleep and whatever the men can find to do. If they want to take a walk, it will have to be in a circle or up and down as on the deck of a steamer, for a straight line from the beach in any direction will end at another beach in less than 15 minutes' walk. There will be one consolation, the cable men will keep thoroughly in touch with the news of the world. Press dispatches will constitute a large part of the cable's business.

### NEW ENGLISH BIBLE.

The New Testament Is Placed Before the Old.

The Sunday School Supply of London is publishing now a new Bible in which the New Testament precedes the Old. "An apology," by Mr. Stanley, the designer, takes the place of the usual preliminary dedication "to the most high and mighty Prince James, by the grace of God," etc., from which the following paragraph is quoted, says the New York Journal:

"The Old Testament is meant as a candlestick upon which the New Testament should stand, yet we have largely made it an extinguisher which puts out its light. A reversion of the order of the two great sections of the Bible seems therefore a necessity 'if the Old Testament is not to prove an obstruction to intellectual and spiritual growth and if its place foremost among those divine realities which satisfy the permanent wants of man's nature. If the Christian Scripture is the medium by which we draw near the supreme manifestation of God on earth, should it not be placed first in fact as well as theory?"

It should be stated that Mr. Stanley makes it plain that he does not in the least degree minimize the value of the Hebrew Scriptures, only he thinks they should take a second place.

The new title page which Mr. Stanley supplies reads thus: "Holy Bible: the gospel of Jesus Christ the Son of God; also the Old Testament, containing the promises of God through his prophets of the ancient Hebrew race." What favor the Bible in this shape will meet with remains to be seen. A good deal can be said for Mr. Stanley's arrangement, and a good deal could be urged against it—the type and shadow of the Old Testament leading up to the New. It may be mentioned that Mr. Stanley suggested the desirability of the change to several leaders of religious thought, but did not meet with the practical sympathy he anticipated and has had to carry it out himself. An "index to the Bible" finds a place in the volume.

Cattle Starved For the Barn. In the middle of the eclipse of the sun the other morning when the haze obscured the sun about 40 head of cattle in Hedden's pastures, near Waterford, Conn., started toward the barn and could not be induced to return to the pasture until the sun began to shine again, says the New York Sun. The twilight effect of the eclipse evidently misled the animals, and that sense which leads them to seek shelter on the approach of darkness started them for the cow barn.

British Army's Remount Station.

Bonham, Tex., has been selected as a remount station for the British army, the only one in the United States. In that city will be concentrated all the horses and mules purchased in this country, and they will be kept there and ready for shipment across the water, says the New York Herald. From 2,000 to 3,000 horses are expected there within the next few days.

## STRONG TESTIMONY.

This is Janesville Testimony and Will Stand Investigation.

If you doubt the following and wish to investigate, you haven't to go to some other State in the Union to prove it. It's not a long story published in Janesville newspapers about a resident in Kalamazoo, Mich., or Tampa, Fla. It's about a resident of Janesville and given in his own words. No stronger proof can be had.

Mr. E. T. Fish, of 355 Racine St. proprietor of the Fish Dry Line, says: "When I was twenty years of age I fell, injured my back, and ever since that I was troubled more or less with a dull, aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician every six months and had myself thoroughly examined under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in our Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles, I procured a box at the Janesville Drug Co.'s store, and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. For this reason I endorse them."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.
